

REACT

GENERAL PURPOSE ADHESIVES

**REACT GP adhesives
are industrial quality to
get the job done!**

REACT GP adhesives are available in thick, medium, and thin grades, along with a low stain activator formulated for uPVC applications.

REACT GP Adhesives

Adhesives available in 20g, 50g and 500g round bottles.

GP THIN - low viscosity adhesive

A fast, low viscosity cyanoacrylate adhesive ideal for bonding rubbers and plastics.

GP MEDIUM - medium viscosity adhesive

A medium viscosity cyanoacrylate adhesive. Suitable for close fitting substrates. Formulated for uPVC applications.

GP THICK - high viscosity adhesive

A high viscosity cyanoacrylate adhesive developed for bonding rubbers and plastics including uPVC. GP THICK, has gap filling properties making it ideal for bonding trims and caps on uPVC windows.

REACT GP Activator

Activator available in 200ml aerosol can.

GP LOW STAIN - uPVC activator

A low stain cyanoacrylate activator, specially formulated for uPVC applications. Ideal for applications where an instant fix is needed. GP LOW STAIN can be used with all REACT GP adhesives.

We can offer an overprint service or your company details on our REACT GP label. 95% of our orders are next day delivery with no minimum order quantity required. REACT GP adhesives are manufactured in the UK.
