Locks in seconds.

LOCKS IN SECONDS

Safer, Stronger and Now DMPT-Free.

CYANOTEC

Mitrelock is a registered trademark of Cyanotec Limited.

New Improved Formulation

- *Greater Depth of Cure – Final bond stronger than wood*
- *Fast on Command Cure*
- *Non-hazardous Active Ingredients*
- *Improved Performance Consistency*
- *Longer On-Part Life*
- *Internal and External Use*

The MITRELOCK® Mitre Adhesive Kit features a 50g tube of mitre glue and an activator.

Designed primarily for securing mitre joints in skirting boards, picture frames, and similar profiles, it is also suitable for bonding various other natural porous surfaces.

The product provides clean, strong, and precise joints without the need for clamping, ensuring an efficient application process. Enhance your woodworking projects with the upgraded formulation of this trusted mitre kit, offering reliable, durable, and instant bonding of mitred joints. Whether assembling decorative trim or constructing furniture, this rapid bonding system delivers professional results with ease. The kit enables quick and effective bonding of mitre joints using a safe and user-friendly activator and adhesive, free from hazardous active ingredients. Suitable for materials such as wood, MDF, cork, leather, and other natural porous surfaces.

What is in the kit?

- 50g Mitre Adhesive
- 200ml Aerosol Activator

Wood Working Adhesives

The Mitrelock® range for woodworking is a selection of high-quality adhesives made in Britain for woodworking, turning repairs, and other bonding applications.

Thin Transparent

A thin, transparent, instant adhesive for filling, bonding and strengthening Hairline Cracks in wood.

Used for pen turning, knife making, wood-turning, marquetry, parquetry, jewellery making and antique conservation.

Medium Transparent

A medium, transparent, general purpose instant adhesive.

Used for wooden models, pen components for wood-turning, metals, gemstones, ceramics, metal and other component substrates.

Activator Aerosol

Mitrelock® Aerosol Activator (DMPT-Free) accelerates the cure of instant adhesives, designed for woodworkers, cabinetmakers, and DIY enthusiasts who prioritise speed and precision.

Thick Transparent

A thick, transparent cyanoacrylate adhesive and has good Gap and Void filling capabilities.

Commonly used for crack filling in artisan wooden counters and tabletops, for bowl and spindle wood-turning and creative inlays.

Thick Black

A thick, black, toughened cyanoacrylate adhesive used for strengthening and bonding knots in wood-turning, highlighting the knot as a feature rather than a fault in the timber.

Micro Tips 10 Pack

Mitrelock Adhesive Microtips for improved control over the amount of glue applied.

Request a Quote

At Cyanotec, we are committed to providing you with personalized guidance to identify the most suitable solution for your needs. If you are aware of the product you require and would like to receive a quote, please feel free to call us at **01384 294 753**. Alternatively, you may email your specifications to sales@cyanotec.com, and we will promptly prepare a quote for you.
